

SOLAR ENERGY

SOLAR EXPERIENCE

Polsinelli Shughart's Solar Energy team provides a full range of regulatory, transactional, commercial and litigation services to its solar energy clients. We have represented developers, operators, investors, manufacturing companies and large energy consumers in facility and project development, engineering, procurement and construction, financing, power purchase agreements, renewable energy credits, and alternative energy grants and tax credits. Our project experience includes both utility-scale solar projects and on-site distributed generation projects.

REPRESENTATIVE SOLAR EXPERIENCE

- Serve as outside general counsel and lead project and finance counsel to a developer of large-scale commercial solar energy projects throughout the United States. Our client is the North American solar energy division of a global solar developer with more than 2,500 installations worldwide.
- Representation of multiple European based renewable energy companies on their entry into the United States market.
- Representation of solar developer in first third-party power purchase agreement solar development in Missouri.
- Representation of a medical center in the negotiation of documentation of a solar power purchase agreement for a 1.19 MW photovoltaic system in Pennsylvania
- Representation of solar developer on 3 MW photovoltaic project as shortlisted respondent on tax advantaged proposal for Colorado project.
- Advised largest mall owner REIT on third party power purchase agreement proposals for California solar projects.
- Representation of developer in connection with the \$120 million development of solar panel production facility in New Mexico.
- Representation of a developer in the financing and installation of solar energy projects for school districts in Arizona.
- Representation of a developer of a solar-powered aquatic center in Wisconsin.
- Representation of international company developing rooftop parabolic water heating facilities for federal prisons.
- Representation of a national bank in Arizona financing rooftop solar projects.

SOLAR ENERGY

ABOUT POLSINELLI SHUGHART

Polsinelli Shughart has 570 attorneys in 16 cities spanning from Los Angeles to Washington, D.C., including offices in Dallas, Denver, Kansas City, Chicago, Phoenix, New York and St. Louis. Polsinelli Shughart is a recognized leader in renewable energy. Our lawyers have broad experience in all aspects of the development, financing, operation, and purchase and sale of renewable energy assets, including experience in the wind, solar, biomass, geothermal, biofuels and other renewable energy sectors.
